ABSTRACT

The digest presents statistics on universities in Nigeria, by year, from 1980/81 to 1985/86. The data provide information on: (1) new students and total enrollment by university department, sex, institution, state of origin, and level of course; (2) academic staff by institution, university department, sex, and nationality; and (3) total degrees, diplomas, and certificates awarded, organized by university department, sex, and level of course. In addition, for 1985/86 only, data are offered on recurrent and capital appropriations of Nigeria's federal universities. (JDD)

FOREWARD

Effective planning and management of any organisation depend to a large extent on the availability of adequate and reliable data and information. The University System should today be particularly concerned with this in the face of increasing demand for effective utilization of available resources based on sound management practices. This can only be possible based on availability of accounts data. Though the National Universities Commission has for sometime been collecting statistics on various aspects of University planning and management in Nigeria, the collected statistics, however, have not been compiled in such a form that would provide, across the board, data for planning, research and support to decision making. It has therefore now decided to publish annually, a *Statistical Digest* and I am happy that this issue which covers the period 1980/81 to 1985/86 is now being published for use by all and sundry but particularly those involved with higher education, especially University education. The data may not be as accurate as it ought to be, but it is based on submissions from the Universities and "a chain is as strong as its weakest link"! Never-the-less, the data is usable and with better data collection at the University level, NUC promises that future editions will be more accurate in all respects.

This edition of the *Statistical Digest* has six sections covering such data as student enrolment, academic staff, senior staff, graduate output for all Nigeria Universities and recurrent and capital grants to the Federal Universities.

I wish to express on behalf of the National Universities Commission our appreciation to the Universities and all who have contributed in one way or the other to the publication of this first Issue of the *Statistical Digest* I hope that such cooperation will be accorded the publication of future editions.

Finally, I hope users of this document will find the information contained herein very useful.

PROFESSOR IDRIS A. ABDULKADIR
Executive Secretary
National Universities Commission, Lagos.

August, 1989.
